Lake Stevens WA • Other

Carol is a professional, knowledgeable, warm and inviting person. She's Outstanding! She makes a personal investment in her students making certain they are knowledgeable, feel confident and are able to succeed. She personally called to welcomed me when I signed up for her Notary2Pro courses. I found it to be very reassuring and put me at ease. The course was excellent, informative, and well presented. She even walks you through full sets of documents. She does an exceptional job of preparing you for a career as a signing agent. Since finishing the courses, with her mentoring program, she continues to mentored me and is always there for any question I have. She provides a wealth of information and resources. She is wonderful!

I took Notary2Pro training after being in this business for over 10 years. The training and mentoring were more than excellent. Unlike many courses I have taken, Notary2Pro course had actual documents to review and study. The test was very tough. Once you have taken the course you will feel more than confident to handle closings.

Carol Ray's notary signing agent training is EXCELLENT. A graduate of her program, which is also my local mentor, recommended her program, and I was NOT disappointed! Her course is extremely informative, and Carol is very knowledgeable about the Notary business. I feel like I learned a wealth of information from her, and felt confident after completing the course. I really like the way she keeps in touch with her graduates; she doesn't just "take your money" to never be heard from again. She offers mentoring support, and I am able to call her at any time if I have a question. To anyone who has a notary commission, or is applying to get a commission, it is VERY important to get educated on the state laws and procedures necessary to do the job. Carol Ray will not only prepare you through her course, but she also offers a wealth of resources to get you started on your path through her website for graduates. Carol stays current with new laws and technology and informs you of various networking and marketing opportunities (such as Alignable!). I am grateful that my mentor told me to take her course.
